

**Get an extra helping
from the government
for free when you save
for your pension**

You should know it's smart to start a pension when you're young. But did you know that if you're saving towards a pension up to age 75, you can receive significant contributions from the government on top of the amount you save?

There are rules regarding how much you can contribute to a pension and how much the government will add to your contributions through tax relief.

The value of investments and any income from them can go down as well as up and you may not get back the original amount invested.
